

Free Tutoring Day @ South Lake Elementary School

On Friday May 12, 2006, Peer2Peer Tutors held a Free Tutoring Day at South Lake Elementary School. From 3:30 PM to 6:00 PM, students from South Lake and other area schools met in the media center to work with tutors on homework, study skills, and key concepts from class.

Once per semester, the downcounty based company holds a Free Tutoring Day at a local school as a way to give back to the community. In an effort to expand into the upper Montgomery County area, Peer2Peer Tutors is working with local PTA's to spread the word about its students learn best from other students concept.

With Peer2Peer, the tutors are real students who have taken the classes and know the expectations. They offer in-home tutoring in any elementary, middle or high school subject, employing juniors and seniors in high school as tutors and adult M.O.M. (Management Operational Mentor) managers for scheduling. As the company approaches the end of its third school year of business, they now have 45 tutors working every week serving a 100+ client base in the downcounty area. By competing on its affordable prices, convenience, and having an MCPS stamp of approval for table use, the company looks forward to expanding its services to the upcounty area during the 2006-2007 school year.
